Description

Not all suggestions in autocomplete match the word entered in the search bar; those that do match are highlighted in bold. Also, suggestions are not sorted by relevance (first those that match, then those that do not match).

Preconditions

1. The user has opened the home page.
2. The user has access to the search field.

Steps to Reproduce

1. Open the website <https://avtopro.ua/>
2. Enter the name of the spare part in the search field.
3. Press the Enter key.
4. Wait for the list of auto-suggestions to appear.

Actual Result

The autocomplete list contains queries that do not match the name of the spare part entered in the search field.

Expected Result

The system should display a list of auto-suggestions, where each query contains the name of the spare part entered in the search.

Or filter requests as follows:

- First in the list are requests with matches
- Second in the list are requests without matches

Environment

- **OS:** Windows 11
- **Browser:** Chrome
- **Version:** 142.0.7444.163
- **Website:** <https://avtopro.ua/>
- **Website version:** version unknown (version not displayed in user interface). Test time: 07.12.2025 20:18

Severity

Low

Screenshot

The screenshot shows a web browser window for the website [avtopro.ua](#). The user has typed 'ресурси' into the search bar. A dropdown menu displays several suggestions:

- Пневмоподушка/Пневморессора моста заднього
- Стабілізатор передній
- Ресора задня
- Стабілізатор задній
- Ресора передня** (highlighted with a green box)
- Сайлентблок **ресурси**, задній
- Відбивник задньої **ресурси**
- Сайлентблок **ресурси**, передній
- Сайлентблок сережки **ресурси**
- Пружина передньої, права
- Сайлентблок/стулка **ресурси** передньої
- Пневмоподушка/Пневморессора моста
- Сервіс задньої **ресурси**

Other visible elements include a sidebar with user information (vorocha... 0% VIPro, 5 кроків до рівня знижки 2%), a navigation menu, and promotional banners at the bottom.
